

Recent LSAA Activities

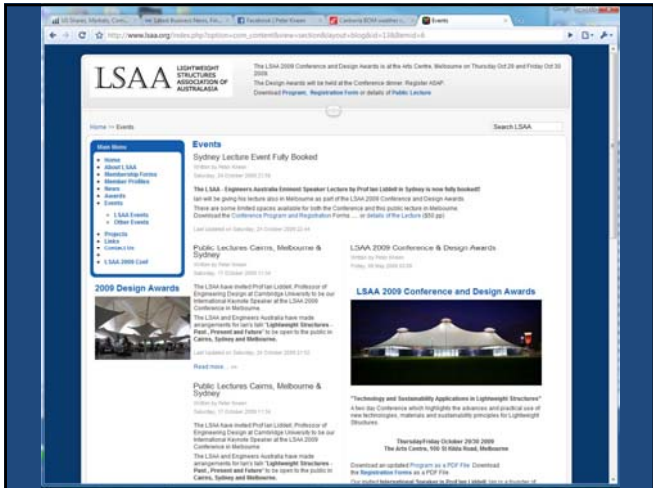

Dr Kourosh Kayvani – LSAA President
Dr Peter Kneen – EO

LSAA Recent Events

- 2007 – 2 day Conference & Design Awards Gold Coast – 65 attendees
- 2008 – ½ day Workshop / Seminar Melbourne In conjunction with Engineers Australia (Vic)

Committee & EO Activities

- Regular meetings by teleconference – organization of LSAA 2009 Conference & Design Awards.
- Major restructure of the website from simple text to a content management system using Joomla.
- Production of information and display boards
- Relationship building with Industry and Professional bodies
 - Example is our keynote speaker joining Eng Aust Eminent Speaker program with lectures in Cairns, Melbourne & Sydney
 - Growing interest from bodies for educational material (eg for CPD)

Sample Display Boards

The Lightweight Structures Association of Australasia is a not-for-profit association of engineers, architects, designers, fabricators and other professionals and contractors who are involved in the design and construction of lightweight structures.

Tensioned Membrane Structures

Surface loads need to be distributed in 'tension' with the supports over a large area. This is achieved by using a network of cables and membranes. The cables are supported by a network of towers and masts.

Cable & Cabinet Structures

Cable structures have a rigid, curved surface. They are supported by a network of cables and masts. The cables are supported by a network of towers and masts.
